

TriCon Consulting, Inc.

Project Management Training and Consulting

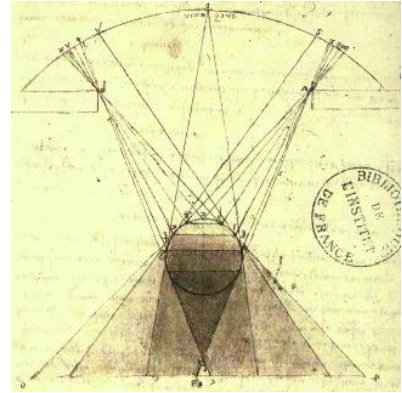

Integrating the Art and Science of Project Management

Consulting

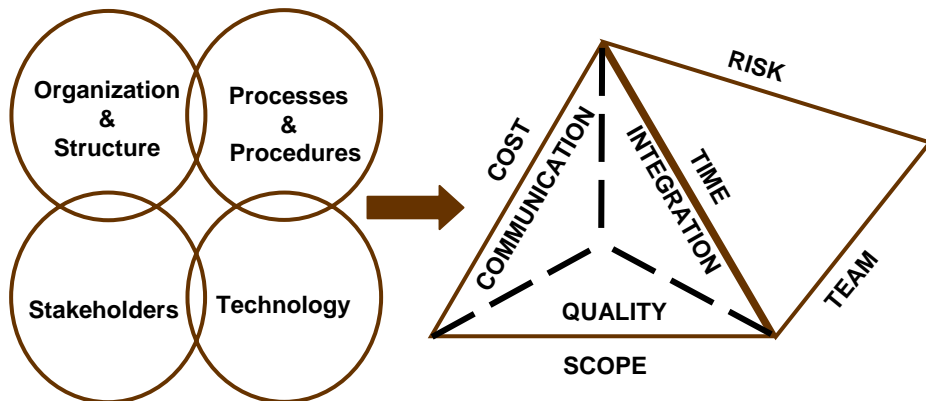

Organizations that understand and effectively implement project methods and processes have a greater probability of project success and a stronger competitive advantage.

TriCon Consulting, Inc. can provide the guidance and expertise necessary to help your management and project teams assess, develop, and implement project processes that integrate all elements of the organization and leverage industry best practices.

TriCon Consulting works with organizations to successfully integrate *Project Management Art* (when and under what conditions to apply project management practices and tools) and *Project Management Science* (knowing how to use the tools, techniques, and templates) enabling them to proactively manage projects and not just react to internal and external conditions.

- **Portfolio Management** – Project Selection & Prioritization, Management & Control, and Portfolio Evaluation
- **Process and Methodology Development** – Project Management Process, Product Management Process, Product Development Process, Organizational Processes
- **Contract Project Management** – Hands-on Project Management support to relieve over-burdened and limited resources
